

SCIENCE EXPO – CHEMSTROM FIESTA 2020

In connection with Silver Jubilee Celebrations of St. Joseph's college, Department of Chemistry has conducted a science expo for 2 days to expose the talents and the innovative ideas of the students.

- Students themselves penetrate into the projects.
- Science fair provides a mechanism for students with intense interest in the sciences to be paired with mentors.
- Some of our projects are informative for eg:- Recycling of plastic, waste management and some projects create fun.

We invited Dr. Shivaji Rao Chavan as a JUDGE for our expo. He keenly observed each and every project and he picked three best projects .

VENUE	:	CHEMISTRY LAB – I, GROUND FLOOR
DATE	:	29/01/2020 – 30/01/2020
TIME	:	9 AM – 5 PM
NO. OF PROJECTS	:	29
NO. OF PARTICIPANTS	:	58

PROGRAM OUTCOME:

1. Students proved themselves by showing their creativity
2. It is a good opportunity for the students to expose their ideas
3. They acquire practical knowledge
4. Students can mingle with everyone and share their ideas
5. Finally, a big asset by this expo is students kickoff their stage fear.
