## SESSIONS :-

On the first day, we were privileged to have Dr. Venkata Ramana, an expert in career development, guide us through a comprehensive session on 'Resume Building.' Dr. Ramana provided us with practical insights on how to craft resumes that stand out. This session was not just informative but truly motivating, as it gave us the tools to better present ourselves in the professional world.

The first day also laid the foundation for the rest of the event, helping us begin our journey of personal and professional growth.

In the afternoon, we had the honor of hearing from Dr. Anuradha on the powerful topic of 'Women Empowerment.' Her words were not only inspiring but also a call to action. Dr. Anuradha's session encouraged us to break down barriers, embrace our strength, and lift each other up. It was a profound reminder that empowering women is essential for creating a more inclusive and just society."

Evening session by Sujana Raj on 'Willpower,' focused on cultivating mental strength and perseverance in the face of adversity. Sujana's personal story and strategies for building resilience were nothing short of inspiring. She reminded us that success is not always about talent or luck, but about the will to keep going even when faced with challenges. It was a truly empowering session that left us all with renewed determination and a sense of inner strength.

"On Day 2, we had incredibly engaging session. The first was a hands-on workshop on 'Power BI' by Sanjay Kumar Chepuri. He introduced us to the world of data analytics and visualization, showing us how we can leverage data to make informed decisions. His insights into the growing demand for data-driven skills left us all motivated to dive deeper into this field."

On day3, Rajkumar Mushkara took us through the intricacies of 'LinkedIn,' teaching us how to build a professional network and establish an impactful online presence. His practical tips and strategies were invaluable for anyone looking to expand their career prospects. The session was not just informative but also inspiring, as it gave us the confidence to actively build our professional identities and reach new heights.

On day 4, we were treated to two exceptional sessions. Dr. Hafeez Basha led an inspiring workshop on 'Entrepreneurship Skills,' where he shared practical strategies for launching and sustaining a successful business. His session encouraged us to think creatively, take calculated risks, and embrace the entrepreneurial mindset."

Then, Kaja Malik took the stage with a session on 'Self-Motivation.' His powerful insights on staying motivated, even in challenging circumstances, resonated deeply with all of us. Kaja reminded us that self-motivation is the key to personal success and growth. His session left us all empowered to take charge of our own futures."

We were also fortunate to have Shaik Hussain Basha speak to us about the mission and vision of IAUYSA. His insights into the work the organization is doing to empower students and youth worldwide were truly inspiring. Shaik Hussain Basha emphasized how IAUYSA is creating

opportunities for youth to thrive, learn, and make an impact in their communities. His words reminded us of the power of collective action and the importance of staying connected as a global network.”

In addition to the enriching sessions, we had a variety of engaging activities that brought us together and allowed us to have fun while learning. The Cultural Night was a vibrant celebration of diversity, where we showcased our traditions, dances, music, and art from around the world. It was a beautiful reminder of the rich cultural heritage that exists within our community."

The Musical Night brought us all closer with a night of music, laughter, and unforgettable performances. The energy was contagious, and it was a perfect way to unwind and connect with fellow participants.

We also had the privilege of engaging in a Fireside Chat, where we had intimate conversations about leadership, personal growth, and the challenges faced by youth today. The discussions were candid, insightful, and helped us gain a deeper understanding of how we can navigate our future.

Fun activities like the Cricket match for boys and the Relay Race for girls allowed us to bond in a spirit of teamwork and sportsmanship. These events brought out the best in us, encouraging collaboration, strategy, and healthy competition

I am thrilled to announce that our college boys have won the first prize in cricket that is conducted by I AU YSA organization and our college girls have won the prizes in relay race as well.

**List of Students who attended are :**
