A field visit to local micro enterprises was organized by entrepreneur development cell in collaboration with institutions innovation council. The visit took place on 27-06-2022, around 90 students from 2nd year took part in this field visit accomplished by 2 faculty members. The fish breeding unit is a micro start-up with 1 crore investment and is first of its kind in Andhra Pradesh. It was found in 2019 by a young team - Dr. M. Vishwas Rao a marine biologist along with Mr. Moses and Mr. Dheeraj who shared the vision to establish an ornamental fish cluster in Kurnool city. They started this venture backed by AP fisheries board. It consists of an aqua lab, storage facility display units and aquarium units. Mr. Alok Moses and Dr. Vishwas explained thoroughly the operations and maintenance of the units to the students.

Time: 10.00AM to 12 noon

Venue: Kurnool ornamental fisheries,

Mamidalapadu Date: 27/06/2022

Students: 90 Members

Program Outcomes:

1. Students were inspired by the work of the unit founders, the journey and their passion. They got complete information on how to start a micro enterprise on fish breeding right from seed procurement, breeding, identifying healthy fish, physical
2. Conditions of the tank, care for unhealthy fish and segregation of fish and soon....
3. Students got awareness on different types of ornamental fish, their breeding procedures and the ideas of starting a fish breeding units.
