AWARENESS PROGRAM
ON
WORLD WETLAND'S DAY

LETTER TO IQAC

Kurnool,

Date: 28.01.2021

To,
The IQAC Coordinator,
St. Joseph's Degree College. Respected Sir,

Sub: Seeking permission to conduct awareness program on World Wetlands Day to our college students-regarding.

We, the Eco club intends to conduct awareness program in connection with World wetlands day on 2nd February 2021 to create awareness about the vital role of wetlands for people and planet.

Therefore, we request you to permit us to conduct this plantation program on 02.02.2021.

Thanking you,

Yours faithfully,
Eco Club

CIRCULAR TO THE STUDENTS

Date 29-1-2021

The Eco club of the college is conducting an awareness program to our college students in connection with the World Wetlands Day-2021 Feb 2.

This is to inform that students of our college are requested to participate in the program.

GIST

World Wetlands Day is an environmentally related celebration to raise global awareness about the vital role of wetlands for people and our planet. It is observed every year on February- 2 to mark the date of the adoption of the convention on wetlands on 2nd February 1971 in the Iranian city of Ramsar.

All countries in the world are trying to their best to protect their wetlands because marshes and swamps may not be homes to people but are the homes to a lot of different animals. Any region that is temporarily or permanently flooded with water is a wetland on a low area where the land is saturated with water is a wetland.

Countries organize a variety of events to raise awareness such as lectures, nature walks, contests on wetlands. community cleanups, plantations, seminars etc.

The Theme for celebrating wetlands day in 2021 is ‘Wetlands and Water’.

So Eco-club of St. Joseph’s Degree College on 3rd Feb 2021. Organized a Tree plantation program. In connection with world wet lands day in Athena School Campus Kurnool. To spread awareness About the various ways the wetlands benefit us. Students of Eco-club participated in Tree –plantation with lot of enthusiasm as it is one of the best activities for making planet greenness, livelier and healthier and also it expands the biodiversity of a specific region.

A total of 40 small trees were planted in premises of Athena School.

OUTCOMES OF PROGRAMME:

❖ Student will work with others to Co-Ordinate activities to achieve club objectives and they also had hands on work experience in planting Trees.

❖ By plantation programs not only students helped restore life quality in a community but contributed to the environment and helped fight climate change

**AWARENESS PROGRAM
ON
ECO-FRIENDLY GANESH**

LETTER TO IQAC

Kurnool,

Date: 07.09.2021.

To,
The IQAC Coordinator,
St.Joseph's Degree College.

Respected Sir,

Sub: seeking permission to create awareness among the students about eco-friendly Ganesh idols -regarding.

We, the eco club intends to create awareness among the students about eco-friendly Ganesha, we want to promote environmentally friendly nature and thus avoiding pollution which is caused by the use of plaster of Paris and artificial colors used in making idols.

Therefore, we request you to permit us to conduct this awareness program on 09.09.2021.

Thanking you,

Yours faithfully,
Eco Club

CIRCULAR TO THE STUDENTS

Date: 08/09/2021

The Eco club of the college is conducting an awareness program on Clay Ganesh on 09/09/2021. This is to inform that all the eco club students are requested to participate in this program at 10:00 AM

GIST

Eco club organized an awareness program regarding promotion of play idols for Ganesh Chaturthi in our college because first youth should come forward and use eco friendly idols so that everyone follows.

As a part of promotional event eco club sensitized students about the importance of using clay idols to save water bodies and to give Ganesh Chaturthi celebrations in an eco friendly way. Charts and posters of eco-friendly Ganesha were displayed in campus a day before Ganesh Chaturthi to urge students to use natural biodegradable materials like turmeric mixed with wheat or ragi and plain clay with water for making idols as they will not pollute water bodies when immersed.

Students have that potential to think out of the box and can transform idols into eco friendly idols which looks peculiar, and beautiful made out of a variety of edible items. Students can also make eco-friendly idols made of fruits turmeric vegetables sugar rice etc.

Ganapati made out of chocolate are becoming quite popular these days at the time of immersion it can be distributed to poor and needy because what makes the idol most attractive is its biodegradable appeal.

Objective

The objective is to protect environment and humans from harmful effects of chemicals used in making Ganesh idols

Outcomes

Students came to know about importance of Ganesha made out of clay

Not to immerse idols in wells, lakes or rivers as it affects the water
