Sub Activity - 1 : CLEANLINESS OF CLASS ROOMS

Present status of Rooms			Work proposed			Proof of evidence
Block	Total no. of Rooms	No. of Rooms required specific changes	Time of work	Type of work	No. of Rooms	
I	35	1. All the rooms are well ventilated and equipped with fans and White washed. 2. No Specific change is required to any room. 3. All the tables Furniture is in good condition and all are arranged properly with numbering	Every Saturday of the Week between 2.30 & 5.00 PM	1. Removal of Spider Web 2. Floor mopping 3. Floor Sweeping	All rooms in the buildings	Activities register showing the activity with signatures of the Volunteers.
II	30					
III	20					

Sub Activity - 2 : CLEANLINESS OF COMMON AREAS IN THE COLLEGE

Areas identified	Extent that require filling	Time of work	Type of work proposed
Play Ground	Around 70 Sq.Mts	January, 2020	Pits in the ground need to be filled with red soil and the cricket pitch in the middle of the ground need to be re-done for making it suitable for playing.
Ground and Campus	Cleaning of leaves and other litter in the ground	Once in every week or whenever necessary.	All the leaves and other waste that is decomposable are collected and dumped in the compost pit in the Third ground.

Sub Activity - 3: CLEANLINESS OF WASH AREAS

Present status	Action proposed	Time of work	Proof evidence
<p>Separate wash room are available for both boys and girls in different floors of the building.</p>	<p>1. All the wash rooms are cleaned as soon as the break hour for students is completed. The washrooms are cleaned with Phenol and mopped to make it dry.</p>	<p>Twice Every day</p>	
<p>RO water is available for students and staff for drinking and every floor has taps to drink water. In some places even water pots with glass are made available.</p>	<p>2. Every floor in the building has a separate A separate batch of maid servants along with red cross volunteers the cleanliness program has been organizing in the institution</p>	<p>Every day</p>	

Sub Activity - 4: PROPER PLATFORM AND CLEANLINESS AT BORE WELL AREA

Present status	Action proposed	Time of work	Proof evidence
<p>There are two borewells in the college premises. There are two sumps for water storage. Three overhead water tanks are present that are used to supply water for daily usage.</p>	<ol style="list-style-type: none"> 1. The area around the bore wells is kept clean so that no dust or other material will enter it. 2. The under ground sumps are well maintained and cleaned regularly. 3. The water tanks are cleaned on regular basis and sometimes bleaching power is also used to clean water. 	<p style="text-align: center;">Once in every month and sometimes fortnight</p>	

Sub Activity - 5: CLEANLINESS IN LAB AND KITCHEN

Present status	Action proposed	Time of work	Proof evidence
<p>There are 12 Labs for science groups, 5 computer labs, 2 seminar halls and 1 library</p>	<ol style="list-style-type: none"> 1. All the labs are cleaned everyday and mopped once in a week. Generally science labs are preferably washed with disinfectants like phenol. 2. Sinks in the labs are kept clean and are washed every day after the lab activity is over. 	<p style="text-align: center;">Every day</p>	
<p>The college has a small kitchen that is used to make day to day requirements like Tea & Coffee whenever required.</p>	<ol style="list-style-type: none"> 3. This room is cleaned every day and all the used utensils are 	<p style="text-align: center;">Every day</p>	

Sub Activity - 6: DUSTBINS AVAILABLE IN CLASSROOMS, COMMON AREAS AND WASH AREAS

Place	No. of Dust bins available	No. of dust bins positioned	proof of evidence
Class rooms	76	1. Dust bins in class rooms, staff rooms, laboratories, office , library and toilets are positioned in the 1 st week of October 2018	
Staff rooms	12		
Laboratories	12	2. Dust bins in campus and play ground are positioned in the 1 st week of November 2018	
Office & Library	02		
Toilets	10		
Campus	08		
Play ground	04		

Sub Activity - 8: CELEBRATION OF HAND WASH DAY (15TH OCT 2018)

Present status	Action proposed	Time of work	Proof evidence
<p>15th October is celebrated as hand wash day</p>	<p>1. After providing awareness about handwash in the assembly in the college, volunteers went to masamajid primary school. Where the hand wash demonstration was made to the children and soaps are distributed</p>	<p>15th October 2018</p>	 <p style="text-align: right; font-size: small;">15.10.2019 11:09</p>

Sub Activity - 9: CONDUCTING ESSAY WRITING ON CLEANLINESS AND HYGIENE

Date of Competition	Action proposed	Proof evidence
26-10-2019	1. Essay writing competition was conducted for the students in college to provide awareness on cleanliness, hygiene and green cover	

Sub Activity - 10: FUND RAISING FOR CLEANLINESS, HYGIENE AND GREEN COVER

Present status	Action proposed	Time of work	Proof evidence
<p>Youth Red Cross wing of St. Joseph's Has raised its own fund to do its activities</p>	<p>The fund raising event was done in the college. The YRC volunteers have created awareness to students of the college in the Assembly. Then the students went around the classes and raised fund for it activities.</p>	<p>4th September 2019</p>	

Sub Activity - 11: CLEANLINESS OF AREA OUTSIDE THE COMPOUND

Present status	Action proposed	Time of work	Proof evidence
<p>Our college campus is located in 11 acres, with lot of trees and small plants.</p>	<p>1. In our college YRC volunteers will clean the outside area weekly once to maintain hygiene.</p>	<p>Every week</p>	

Sub Activity - 12: UNIQUE IDEAS TO ENSURE CLEANLINESS

Details	Theme	Time of work	
<p>Providing clean drinking water with RO Plant</p> <p>Providing water cans in each floor for the convenience of students</p>	<p>1. Institution installed a RO unit in the building. The drinking water available in the campus is separately circulated from RO unit by pipe line. This is our unique ness</p>	<p>Every day</p>	

Sub Activity - 13: NUMBER OF TREES PLANTED & NUMBER OF PLNTS SURVIVED

Details	Theme	Time of work	
<p>Plantation is a common activity in the college. In every season asters are raised. This year in front of the college around ten plants are planted and protected.every day care is taken</p>	<p>1. All planted plants are survived. Recently planted ten plants are protected by covering bins. This helps in protection from intense sunlight and from grazing animals</p>	<p>Last week of September, 2019</p>	

Sub Activity - 14: COLLEGE GARDENS

Details	Theme	Time of work	
<p>College garden is well planned and well protected and has very good water sprinkling system. Two very big lawns are raised in side the college along with several flowering as well as ornamental plants</p>	<p>1. Greenness provides relaxation to the eye. Gardens are interesting places for pleasure seekers. It even provides a pleasant atmosphere in the campus good for inculcating esthetic values among students. Caring is every day activity</p>	<p>Every day</p>	

Sub Activity - 15: GREEN FENCING FOR THE INSTITUTION

Details	Theme	Time of work	Proof of evidence
<p>The institution is having huge play ground with compound all and also good free area in front of the Building. we prefer green fencing and maintain it in the college</p>	<p>1. Trees are lungs of the universe. They provide pure oxygen the life of organisms. They even reduce the temperature in the surroundings and promotes a sort of joy and pleasure. Even act as good sound and pollution absorbers</p>	<p>Weekly once</p>	

Sub Activity - 16: GREENERY IN ADOPTED PUBLIC NEAR THE INSTITUTION

Details	Theme	Time of work	
<p>The compound wall outside the college is on one side of the main road. We develop avenue trees for shade as well as soil binding to reduce the soil erosion and pollution</p>	<p>1. Ten avenue trees were planted, since then they were protected and taken care. Cleaning and watering is a regular practice to the red cross student</p>	<p>Twice in a week</p>

Sub Activity - 1: SWITCHING OFF BULBS/FANS/COMPUTERS ETC., WHEN NOT IN USE

Present Status		Proposed activities and their Implementations	Time of work	Proof of evidences
Previous electricity bills	Average amount			
1. Two month of average of Electricity bills for September & October.2019	61647	<ul style="list-style-type: none"> Students were explained the importance of electricity and water and motivated to avoid their wastage. Signage's displayed at different places indicating switch off the tubes and fans when not in use. Volunteers were divided into three groups and each group was allocated one block of the college. Daily after 1.45PM volunteers were going to each classroom, staffroom and labs and switching off the tubes, fans and computers which were not in use. 	Daily activity	
2. Two month of average of Electricity bills for November & December.2019	53796			
3. Two month of average of Electricity bills for January & February.2020	40320			
4. Overall average for six months	25960			
				

Sub Activity - 2: REPLACEMENT OF TRADITIONAL BULBS WITH LED BULBS

Present Status	Proposed activities and their Implementations	Time of work	Proof of evidences
<p>Presently St. Joseph's College has solar panel systems to absorb sun light as a source of energy to generate electricity.</p>	<ol style="list-style-type: none"> 1. As St. Joseph's College has well ventilated class rooms and laboratories, and college works from 8.15 am to 1.45 pm the usage of electric bulbs is minimum. 2 LED bulbs are placed in the newly constructed placement cell and night lighting system in the college campus. 	<p style="text-align: center;">4th week of September 2019</p>	

Sub Activity - 3: VOLUNTARY FUND RAISING BY TEAM FOR INSTILLATION OF SOLAR PANELS

Details	Proof of evidences
<ul style="list-style-type: none">• Solar panels are an environmentally friendly way of producing electricity• St. Joseph's College has a large proportion of rooftop space in proportion to the energy consumption• The peak loads are often in the daytime, coinciding with peak solar generation• Most of the electrical loads of the college can be easily supported by solar energy• Solar power is clean energy, and offers an ideal opportunity for their students to learn the practical aspects of solar power• College management has invested huge money for purchasing 400 solar panels generating 100KV of electricity.	 An aerial photograph of a large, multi-story building with a central courtyard. The roof of the building is covered with numerous rectangular solar panels, arranged in rows. The building is surrounded by greenery and other structures in the background.

Sub Activity – 4: SEALING THE LEAKAGE OF WATER TAPS & PIPES

Proposed activities and their Implementations	Time of work	Proof of evidence
<ul style="list-style-type: none">• A simple small leakage of water tap can produce 30 to hundreds gallons of wastewater per day.• Our YRC volunteers thoroughly examined all the taps and pipes of washrooms, laboratories and drinking water taps.• They identified 3 leaking taps/pipes in building 1 washroom, 1 in building 2, 2 in building 3, 3 in laboratories and 5 of drinking water tanks. <p>All the leaking taps/pipes are perfectly sealed / repaired by college plumber.</p>	<p>4th week of November 2019</p>	

Sub Activity – 5: WASTE WATER MANAGEMENT BY SUPPLYING TO PLANTS & KITCHEN GARDENS

Proposed activities and their Implementations	Time of work	Proof of evidence
<ul style="list-style-type: none">• St.Joseph’s College is promoting the practice of waste water management through supplying waste water to the gardens in the college campus.• College has been promoting waste water management to reduce water stagnation & reduce mosquito breeding in college campus.• This is also useful to increase the sense of responsibility of each student towards waste water management and to inculcate the bonding between the nature and student during the early stages of life.	<p>4th week of January 2020</p>	

Sub Activity – 6: DIGGING OF RAIN WATER HARVESTING PITS

Proposed activities and their Implementations	Time of work	Proof of evidence
<p>Rain water is usually free from harmful chemicals, which makes it ideal for irrigation purposes. Another advantage is that it reduces demand for potable water.</p> <p>Because of changing weather conditions, rain percentage is decreasing year by year. It is everybody's responsibility to save water. Rain water harvesting is the only option to increase ground water levels.</p> <p>St. Joseph's College management has accepted and approved for the digging of two rain water harvesting pits in the college campus in the month of April 2019</p>	<p>4th week of December 2019</p>	

Sub Activity – 7: CELEBRATION OF WORLD ENERGY CONSERVATION DAY

Proposed activities and their Implementations		Time of work	Proof of evidence
Activity	Theme		
<ul style="list-style-type: none"> As a part of World energy conservation day, students and nodal officers of YRC took out a rally to Masamaseedu village to create awareness about energy conservation. 	<ul style="list-style-type: none"> World Energy Conservation Day was celebrated on December 14th 2019. YRC volunteers of our college were conducted an awareness campaign on “Prudent use of Electricity” in neighborhood & campus on 14-12-2019. The concept of prudent use of electricity and A UNIT SAVED IS UNIT PRODUCED was promoted among students and neighborhood. 	<p>14th December 2019</p>	

<ul style="list-style-type: none"> Elocution competition 	<ul style="list-style-type: none"> Elocution competition was also conducted on Energy conservation to Post graduate students of St. Joseph's College to create awareness on energy conservation among students. 	<p align="center">14th December 2019</p>	
---	--	--	---

Sub Activity – 8: ESSAY WRITING/PAINTING/SKITS COMPETITIONS HELD

Proposed activities and their Implementations		Time of work	Proof of evidence
Competition	Topic		
<p align="center">Essay writing</p>	<p align="center">‘Energy & Water Conservation’</p> <p>An essay writing competition was organized by YRC to the Degree students of St. Joseph's college on energy and water conservation to create awareness among students. Prizes were distributed to the winners.</p>	<p align="center">30th December 2020</p>	

Skit play	<p>“Save Water – Save Life”</p> <p>The message of Water conservation was promoted by skits performed by the students of St.Joseph’s college. It combines delightful characters, dialogues and music to reinforce importance of water conservation concepts</p>	<p>31st December 2020</p>	
-----------	---	---	---

Sub Activity – 9: RALLIES CONDUCTED IN VILLAGES / TOWNS

Proposed activities and their Implementations		Time of work	Proof of evidence
Place of Rally	Theme of Rally		
<p>Rally to Sunkesula Village was organized by Youth Red Cross wing of St.Joseph’s college, Kurnool.</p>	<p>“Energy Conservation”</p> <p>All YRC volunteers of St.Joseph’s college and Nodal officers participated in this rally to spread awareness on energy</p>	<p>26th November 2019</p>	

	conservation.		
Rally to Mamidalapadu Village was organized by Youth Red Cross wing of St.Joseph's college, Kurnool.	<p>“Water Conservation”</p> <p>Being an environmentally responsible organization, we have been quite passionate about Water Conservation. We realized that people do not proactively take steps towards water conservation because of lack of awareness.</p> <p>All YRC volunteers of St.Joseph's college and Nodal officers participated in this rally to spread awareness on water conservation.</p>	30th January 2020	

Sub Activity – 10: UNIQUE IDEAS TO CONSERVE WATER & ENERGY

Ideas brain stormed	Proposed activities and their Implementations	Time of work	Proof of evidence
---------------------	---	--------------	-------------------

Creating awareness among students on energy and water conservation by assembly reading

- YRC volunteers with good communication skills were selected by the nodal officer.
- YRC volunteers were explained the importance of water and energy conservation to the entire college students in the Assembly session and created awareness among the students.

Fourth Friday of every month

Awareness on energy and water conservation through social media

- Social media is a great tool for creating awareness about any social issue.
- YRC volunteers with good software skills were selected by the nodal officer.
- YRC volunteers prepared photos and videos explaining the importance of energy and water conservation. They posted the images and videos in face book and whatsapp groups
- Awareness on energy and water conservation was also created by conducting seminars.

31st January 2020

Sub Activity - 1 : PROPER SEGREGATION OF WASTE INTO DRY AND WET

Present system of segregating wastes from the campus and its disposal	Proposed activities and their Implementations	Time of work	
<p>After college hours maid servants used to collect the waste from the class rooms and from the campus and are directly dumped in the Municipal dust bins opposite to the college campus</p>	<p>1. Nodal officer instructed the enthusiastic Swacchadal students for the proper management and disposal of waste in the campus. Generally the waste created in the campus is largely dry waste such as disposable plastic bottles and water sachets , biscuit rappers, paper and dried leaves of plants into campus. Wet waste from canteen surroundings collected separately and are disposed into municipal dust bins</p>	<p>3rd September 2019</p>	
	<p>2. Dust bins provided in each class room and the student are enlightened about the usage of dust bin and their advantages in maintenance of cleanliness as well as good health</p> <p>3. Dust bins are temporarily arranged near staircase, Entrance, Canteen for wet and dry collection</p>	<p>3rd September 2019</p>	

4. Permanent dust bin system adapted last year are continued. dust bins are placed in at canteen meant for wet waste collection and the remaining are for the collection of dry waste. Four are kept in play ground and remaining are kept out side the building and inside the campus

**3rd November
2019**

Sub Activity - 2 : REGULAR CLEANING OF WASTES FROM DUST BINS AND THEIR DISPOSAL

Waste handing over to municipality vehicle every day

Present system of segregating wastes from the campus and its disposal	Proposed waste disposal system	Time of work	Proof of evidence
	1. Every day volunteers along with maid servants of the college dump in the big tins every day .It is handed over to municipality vehicle twice or thrice in a week	Every day	Common Register

Sub Activity - 3: ESSAY WRITING AND SKIT PLAY COMPETITIONS

Details	Theme	Time of work	Proof of evidence
Essay writing competition	<p>3. Essay writing competition is conducted on plastic and paper management in the campus for all interested students. This encourages the ability of the students and also motivates them toward its management</p> <p>4. Prizes were given to I prize Pushpa Rekha. K. IBMC II prize Md. Haseeb IMBC</p>	4 nov 2019	

Sub Activity – 4: RALLIES CONDUCTED ON WASTE MANAGEMENT

Places of Rallies proposed	Theme of the Rallies	Time of work	Proof of evidence
Nidgur	1. Rallies on waste management were conducted in the Nidgur village to provide awareness about the waste and the social, health problems associated with accumulated waste in the neighbourhood.	20 Sept 2019	 A group of students, including girls in school uniforms and a girl in a red headscarf, are holding a white banner. The banner features a red cross logo and the text: 'YOUTH RED CROSS SOCIETY', 'St. JOSEPH'S COLLEGE', and 'Sunkesula Road, Kurnool-4'. They are standing outdoors in a village setting with buildings in the background.

Sub Activity – 5: UNIQUE IDEAS ON WASTE MANAGEMENT

ideas brainstormed	Proposed activities	Time of work	Proof of evidence
<p>Dry ,Biodegradable waste matter is converted into compost for the use in the college garden</p>	<p>Exhibit models were displayed during St.Joseph's degree college silver jubilee celebrations. students from different college visited exhibition. Awareness is created in the visitors towards Youth Red Cross</p>	<p>28 January 2020</p>
