## Gist

### Objectives of Program

- To create public awareness, especially in the younger generation for drawing inspiration from **Professor P.C. Mahalanobis** about the role & importance of statistics.
- To encourages students to develop data analysis skills from an early age.
- To promote critical thinking skills by encouraging students to question, evaluate, and interpret information. It helps them become better problem-solvers and decision- makers.

### Theme of the day

National Statistics Day is celebrated to honor **PC Mahalanobis**. Statistics Day 2023 theme is “**Alignment of State Indicator Framework with National Indicator Framework for Monitoring Sustainable Development Goals**”.

### About Program

This program was this program has organized by department of statistics. We invited a chief speaker, **DR. B. Venkatesu, Assistant professor in Statistics** from School of Business, Woxen University, Hyderabad. He presented a beautiful seminar on “**Prospective career with Data science**” with PPT to the students of all years. The speaker motivates student in all streams. The celebration on this day serves as an essential reminder about the power of statistics in transforming societies, empowering individuals, and driving progress.

This equips them with the ability to interpret and utilize data effectively, enabling them to become informed citizens and contribute to evidence-based decision-making in their personal and professional lives.

**Date:** 30 June 2023

**Venue:** St. Joseph’s Degree College, Kurnool

**Time:** 9:30 am - 11:30 am

Students are enthusiastically participated and the program was celebrated smoothly and in delightful way.

It's a real usefull seminar,I learn more about statistics in my future' careers options .

I'm very much boosted with this seminar.I came accross many career objectives which i dont knew them before.Even though i wanted to go in Statistics field i didnt know much about it before. But now i have a clear idea in proceeding towards my goal.

I heartfully thank Statistics dept for conducting this seminar.

I have learned in this seminar about statistics students A every stats student can build up a life very beautifully because more opportunities when compared to others.

The seminar was good and I appreciate the effort put into organizing the event. However, I noticed a few areas where the seminar fell short of my expectations. One major concern is the absence of certain crucial topics related (Actuarial science) . I hope that my feedback will be taken constructively, as my intention is to assist in improving future seminars.

I have learned that We have to learn more skills for better future.

It's great to know the information regarding the statistics
