

**Guest Lecture on Statistical Inference in Silver Jubilee  
Degree College, Kurnool.**

**Gist**

Inferential statistics are among the most useful tools for making educated predictions about how a set of data will scale when applied to a large population of subjects.

An Invitation was received to conduct Guest lecture on Statistical inference from Department of statistics, Silver Jubilee Degree college, Kurnool.

**Date:-** 23-09-2023

**Time:-** 4:00 PM

**Venue:-** Silver Jubilee Degree college, Kurnool

**Resource person:-** P.Moulali

**Classes involved :** II B.Sc MSCS students

**Program Outcome:**

1. Estimate the uncertainty or variation from sample to sample
2. Provide a range of value for something's true worth in population.
3. Infer information about the population from sample data.
4. Testing the Hypothesis.
5. Make inferences about the data.
6. Deliver a probable range of values for the true value of something in the population.

Dt: 21-09-2023  
Kurnool.
