

### Field Trip to Yamuna Vermicompost, Peddatekur, Kurnool.

- On 6 November 2023, the Department of Zoology organized a field trip to Yamuna Vermicompost in Pedda Tekur, Kurnool.
- Fifty students and three faculty members participated. The farm manager, Mr. Harikrishna, guided us through the vermicomposting process, explaining the importance of earthworms in organic waste decomposition.
- We observed the different stages of composting, from waste collection to the final product. Mr. Reddy also highlighted the benefits of vermicompost for soil health and sustainable agriculture.
- The visit concluded with an interactive Q&A session, providing practical insights into vermiculture.
- This trip effectively supplemented our theoretical knowledge with real-world experience.
