

Awareness Program on Vermicompost Production

On **January 28, 2025**, the Department of Zoology, St. Joseph's Degree College, Kurnool, organized an awareness program on vermicompost production. The session was conducted by **Mr. Harikrishna, Director of Yamuna Vermicompost, Kurnool**. He explained the importance of vermicomposting in sustainable agriculture and waste management. Students gained insights into the process, benefits, and commercial aspects of vermicompost production. The interactive session helped students understand the role of earthworms in soil enrichment. The program successfully encouraged eco-friendly practices among participants.
