**PLANTATION PROGRAM
ON
WORLD CONSERVATION DAY**

By Eco club members

LETTER TO IQAC

Kurnool,

Date: 27.07.2024

To,
The IQAC Coordinator,
St. Joseph's Degree College.
Respected Sir,

Sub: Seeking permission to conduct plantation program on World Conservation Day by our college students-regarding.

We, the Eco club intends to conduct plantation program in connection with World Conservation day on 31st July2024 to create awareness about the vital role of Environment for people and planet. Therefore, we request you to permit us to conduct this plantation program on 31.07.2024.

Thanking you,

Yours faithfully,
Eco Club

CIRCULAR TO THE STUDENTS

Date:30-07-2024

The Eco club of the college is conducting a plantation program by our eco club student's in Krishna Nagar, near Silver Jubilee College in connection with the World Conservation t Day.

This is to inform that all the eco club students are requested to gather near Botany lab on 31-07-2024 at 8:00 am to participate in the program.

GIST

Tree plantation leads to “**Tree**” **mendous** positive changes for our planet. Trees are shady characters under which a brighter future can thrive.

Eco club students of St. Joseph’s degree college have embraced the leaves by engaging in plantation drive at Krishna Nagar park, ITC flyover on July 31 2024.on account of “World conservation day which is observed globally on 28 July every year. This day serves as a reminder of the importance of conserving our natural resources and protecting the environment for future generations.

Our Green Team has branched out to take a stand for the land by planting trees near the park along with covering these green gifts with beautiful tree guard mesh.

This plantation was organised based on the theme of this year’s world conservation day ‘**Connecting People and Plants, Exploring Digital Innovation in Wildlife conservation**’. The act of planting trees not only helps in preserving our planet’s ecological balance but also provides numerous other benefits.

So our Eco club regularly encourages students in our college to **green up their life and** incorporate eco-friendly practices for a sustainable tomorrow.

Objectives:

- To promote afforestation and enhance green cover by making greener choices for brighter tomorrows.
- To spread awareness about” world conservation day” which stresses the need to preserve the natural resources.

Outcomes:

- ❖ Eco club team is regularly involved in urging students and neighboring communities to take proactive steps towards nurturing nature for shady future.
- ❖ The planting of trees helps cool the air especially in urban areas where it is 9 degrees warmer than places with trees.

AWARENESS PROGRAM ON CLAY GANESH IDOLS

LETTER TO IQAC

Kurnool,
Date: 05.09.2024

To,
The IQAC Coordinator,
St. Joseph's Degree College.
Kurnool.

Respected Sir,
Sub: seeking permission to create awareness among the students about eco-friendly Ganesh idols -
regarding.

We, the eco club intends to create awareness among the students about eco-friendly Ganesh, we want
to promote environmentally friendly nature and thus avoiding pollution which is caused by the use of
plaster of Paris and artificial colours used in making idols.
Therefore, we request you to permit us to conduct this awareness program on 06.09.2024

Thanking you,

Yours faithfully,
Eco Club

CIRCULAR

The Eco club of the college is conducting an awareness program on Clay Ganesh on 06/09/2024 This
is to inform that all the eco club students are requested to participate in this program at 10:00 AM.

Environmental Awareness on Clay Ganesha

Eco club of St. Joseph's Degree College regularly conducts awareness campaigns of celebrating festivals in eco-friendly way to balance traditional and sustainability.

In recent years, there has been a significant push towards using eco-friendly materials for religious celebrations, particularly during the Ganesh Chaturthi festival.

Ganesh Chaturthi is a Hindu festival that celebrates the birth of Lord Ganesha who is known as God of Wisdom, Knowledge, Prosperity and Happiness.

The traditional practice of using plaster of paris(PoP) idols has been known to cause environmental harm due to the non-biodegradable nature of PoP, the chemical paints used and the toxic waste left in water bodies after immersion. This has led to water pollution, affecting aquatic life and water quality.

To counter this, the use of clay Ganesha idols has gained popularity. These idols are made of natural clay, which dissolves easily in water after immersion, leaving no harmful residue. Additionally, natural paints used on these idols are non-toxic. The shift towards clay Ganesha idols promotes environmental sustainability, reduces pollution and encourages responsible celebrations.

A poster presentation is a great way to raise awareness about the importance of using clay Ganesha idols. Our students displayed posters in our college like "Go Green with Clay Ganesha" to promote sustainable and environmentally conscious Ganesh Chaturthi celebrations.

Objectives:

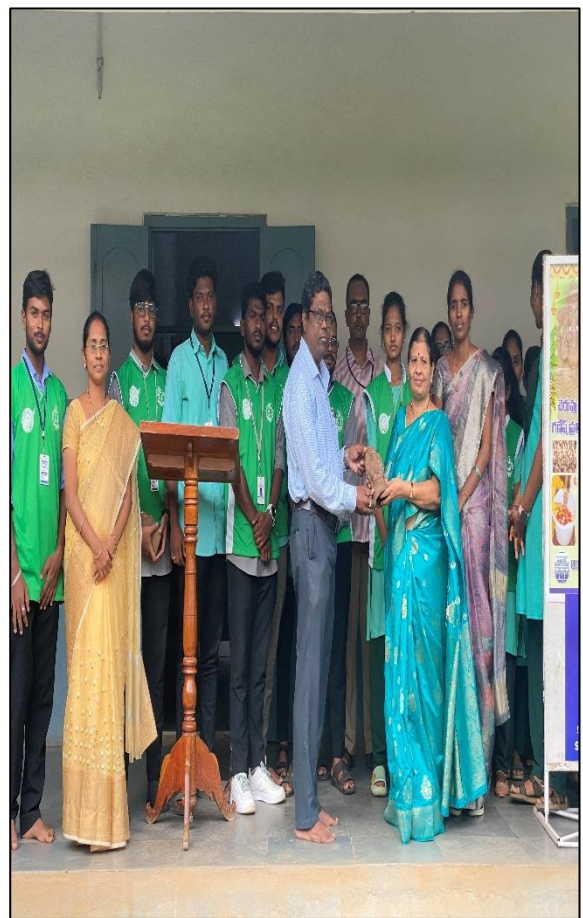

- To minimize the negative impacts of using idols made of PoP and promote clay idol.
- To make students aware of eco-friendly immersion and recycling of previous years decorations.

Outcomes:

- SJDC green warriors have displayed poster in the campus for promotion of clay idols.
- Clean green festivals has lead to healthy living space with reduced waste production.
